

## How we help

Do we only just send?

"NO"

MVA has a process of training, teaching and have a team member that will come and help you on your journey. We organise tickets, transport, accommodation, schedule and so much more.

Our teams consist of school teams, retirees, professionals in various sectors, (pastors, ministers, youth leaders, teachers, medical students, bible students, builders, and many other trades ) and people we call God's professionals.

IMPACT

WHY NOT CONSIDER BEING A PART OF THIS TEAM THAT SAYS YES...

*Here am I Send Me.....*

*This could be the opportunity to grow your faith, your love for Christ, help develop ministry skills and respond to God's call..*

*"being a part of this team I was able to have a stronger awareness of team work relationship building, and cultural awareness. By participating in field work, the practical application of learned in class sessions, helped so much in my understanding and continual studies..."*

Involve

Inspire

Impact

## Combining ministry opportunities with Adventure. Encouraging the Churches in Borneo.

Travel to Kota Kinabalu the vibrant capital of Sabah, Malaysia. Venture into the remote jungle interior. Come prepared to encourage the local churches, under threat. Participate in worship, dance, prayer, meetings, bible teaching and children's church. Help teach English in remote communities at the base of Mt Kinabalu (the highest mountain in Asia) or just chill out playing soccer and sharing in activities with the local communities.

Unwind with our Field Staff as they share with you. Their many stories and testimonies they have. **Get involved** in the journey God has placed in their hearts. **Empower** by just being there and showing you care enough to **come**.

## Haven't heard of Us?

Missionary Ventures Australia has been serving in Australia since 2001. We have been quietly working behind the scenes of borders and countries with the indigenous leaders God places in our path. Helping to empower by encouraging them with Words, getting our hands dirty, creating relationships, listening and just loving.

We have had the privilege of helping and teaching within refugee camps, children's rescue shelters, bible colleges, local dumps, local villages, churches and helping in rebuilding on a small scale cyclone effected areas.

We have been mostly involved in countries within the Asian/Pacific regions, **OUR NEIGHBORS.**

## Our Vision

Our heart is for people on our doorstep, both within Australia and around Asia Pacific. We aim for everyone's lives to be changed and touched by God, whether they are part of the team or not.
