

## Thailand

"My time with Missionary Ventures in Northern Thailand was absolutely incredible and certainly an experience that I will never forget. Everyone we met was so welcoming and it was awesome to be able to share together in prayer and worship as well as simply laughing and hanging out together. From the very first day as we walked across into Burma I felt God's presence in everything that we did and saw. Since I have been back home, so many people have asked me if it was hard to see so much suffering and not be able to do anything about it. Yes I did see suffering, but I saw more hope, joy and I saw God working in amazing ways in the lives of the people I met and the communities that I visited. I feel so

blessed to have been able to see the exciting things that God is doing in Northern Thailand through the international and local missionaries we met, and to have the opportunity to encourage these people in their work for Christ."

Rachel

My first mission trip was to Thailand, in January earlier this year with Missionary Ventures Australia. I must say each of the sixteen days we spent there something new and exciting happened, whether it was playing sport with the children at the home's we visited, or hearing the testimony of the people we met, there was always something to look forward to. Being my first mission trip, I really had no idea what to expect, except that I knew God was going to do something incredible, and boy did He deliver!! Our team had an amazing time together, and we were so blessed to meet people doing wonderful things for God. The one thing that stood out to me while we were in Thailand was the joy of the people we met, despite the language and cultural barrier, their smiles expressed everything that would have been said otherwise.

Justine

In 2010/11 i visited a childrens home in Thailand my heart was touched by the children, in February 2014 i returned, what a blessing to see how far they had come, very happy and confident thanks to selfless people willing to say Yes Lord, went to a Dump felt heart sick for the people living there, through no fault of their own, once again people doing what they can to help, going in with cooked meals etc, i went to a few more homes where children can live and grow as a child should free from the horrors around 18 or more children living with LOVE and PROTECTION
